On-line Course

Jump Into Math 7/8

Dates:

June 5-23, Monday-Friday

Times:

8-10:30 am

Enrollment:

Minimum 10, Maximum 28 students

Fee:

\$150.00

Course Description:

This course is designed to help students who have performed well in Math 6 this year make the jump into Math 7/8 next year. The course covers the '7' portion of Math 6/7. It can also benefit students who were in Math 6/7 or Math 7, to review or sharpen their skills.

This year, the course is offered online via Schoology at mycherrycreekschools.org. The course will be available from 8:00 a.m. to 10:30 a.m. each day of the class. Students will work through examples and practice problems, checking their answers as they go,

and then complete a daily Check for Understanding. As they are working through the examples and practice problems, they will be able to ask the instructor questions through the message board.

At the end of the course, students will be given a Summer Workbook to complete (replaces the workbook assigned in their math class) to help reinforce what they've learned in the class so they are able to successfully complete the placement test in August.
